Q1: Both a Dual Boot and Ubuntu shell are installed and functioning

Q2: GCC is installed and functioning

Q2:
1. Yes I have programmed in C
2. No I have not programmed much in C++
3. No I have not programmed in Cuda
4. No I have not written parallel code
5. Yes I have used Linux before

Q4: When taking Operating Systems Professor Leverington recommended all students take 3 courses, this being the third and final course I've yet to take. Also parallel programming seems a valuable tool to learn and implement when out in the real world. And it seems fun too.
